BANK STATEMENT

vanced in Wall Street.

REVIEW OF MARKET CONDI-TIONS THE PAST WEEK.

New York, Sept. 30 .- The weekly bank statement was the center of interest today, and published intimations of its favorable character were circulated be-

The volume of dealings in stocks t week has shown a shrinkage from d to day under the constraining influen of diminishing supplies in the mor market. A moderate effect was pr duced in prices, but the decline w not steadily pursued, and strength fro time to time in special stocks served a sustaining influence on the gener list. The factors in the money mark were so accurately known and the fect so early foreseen that there h seemed no room for ignoring them, a their development has not uncover any weak position up to this time. T feeling has been prevalent that the sp cial demands being met this week the money market were of a kind whi would be temporary in their effect, as the hope has been held that the su plies accumulated for meeting gre syndicate transactions would flow ba quickly into the money market with t conclusion of those transactions. T payment of subscriptions to the Per sylvania and Atchison converti bond issues have been the special erations making the largest deman which are to be met today, and an extensive shifting of loans has gone during the week in preparation for these payments and for the Oct. I quaterly settlements which are unusual

Aside from these special requirement demands on bank reserves have continued large with heavy prospect persisting for some time. The course of money rates has been upwarthroughout the world's money centered warms further large cryetic requires. and some further large credit requirements are to be met by the New Yomoney market in the immediate futu The future of the money market therefore, by no means clear. The a monition to caution in the use of cre its on stock market speculation was a force that had to be heeded, and was effective with the rise in money rat to the highest level of the season. The advance of a full 1 per cent in Bank of England official discount to 4 per cent was a proclamation of t shrinkage of banking resources and the necessity for retrenchment. The rate has not been touched by the Bar of England for over two years, and he only been exceeded a few times many years past in times of specistress. A policy of recuperation is the clearly foreshadowed, which had it nediate effect on the continental

changes in London.

The problem of New York's ability draw further gold from Europe for l own relief is thus made immediate prominent. Parcels of gold engaged ia week in London have arrived from tin to time and have gone into New Yor bank reserves, and an additional \$1,890 000 was secured early in the week arrive next week. The forthcomir Russian loan has come up for renew concern, and reports abroad have sta ed the intended amount to be \$175,000 300 to be apportioned to Paris and Be in. It is the general expectation the there will be a New York participation in the subscriptions also. Foreign e change rates in New York went high under the influence of hardening for the manney markets. Some of the enterpression was attributed to a demander was attributed to a demander the result of the control of the change short interests to cover sale from short interests to cover sale made against earlier borrowings abroa and against the imports of gold. The has been complaint of a scarcity grain and cotton bills, foreign deman for cotton having been curtailed by th speculative level to which the prices that commodity had been lifted. Toreak in the cotton market after t middle of the week brought some re-rival of foreign buying and the foreign exchange rate was affected by that and

the rise in our money rate.

The sub-treasury is taking very large sums from the New York money martet, principally in the form of customs ayments, which the large importation of merchandise make unusually bears. f merchandise make unusually heavy. The resumption of government refunding operations announced on Wednes-

day is calculated to offer only a slight relief to the drain of revenue payments. Heavy currency shipments from Chicago to the agricultural sections have been resumed and the drain of the New York exchange rate at Chicago gives warning of a corresponding demand on New York from that point. Next week the payment of New York taxes will call for many millions of dollars and previous experience shows that this is not without effect on the money mar-

previous experience shows that this is not without effect on the money market. Beyond the Japanese loan subscription on Oct. 16, which it is estimated will call for some \$30,000,000. The conviction has grown up that nothing like an early return of ease in the money market is to be looked for and speculators dread the possibilities of flurries in the call money market such NEAR THE TOP AT CLOSE speculators dread the possibilities of flurries in the call money market such as almost invariably bring a spilling out of stocks in hasty liquidation. The consideration of the money outlook has been to the practical exclusion of all others in the stock market. The undeviating character of reports of Eusiness industrial and agricultural prosperity, however, has been underlying influence, and has constituted a passive power of resistance to the depressing influence of the growing construction of the money market.

the money market.

Bonds have been dull and only slight-

statement was the center of interest today, and published intimations of its favorable character were circulated before the statement that appeared the property of the contract of the state of the sta

Metal Markets. New York, Sept. 30.—The metal markets showed the usual quiet in the absence of London cables, with prices generally maintained. Lake copper is quoted at

Sterling exchange steady with equal business in bankers' bills at 4.85254.4.8550 for demand and at 4.83264.8235 for sixty-day bills. Posted rates, 4.8344.834 and 4.864.864.864. Commercial bills. 4.814.64.82. Bar silver, 6042; Mexican dollars, 4fc. Government bonds steady; railroad bonds firm.

Circulation, \$54,066,100; increase, \$353,800. Legal tenders, \$78,050,300; increase, \$470,

lowing subsequent withdrawal of the support, the market became still weaker. December dropped to \$3\(^1\ext{\text{\text{0}}}\) \text{\text{0}}\) was regalized on covering by shorts. September delivery showing the greatest reaction. The market, however, closed weak, with December at \$5\(^1\ext{\text{\text{0}}}\). September closed weak, with December at \$5\(^1\ext{\text{0}}\). September closed weak, with December at \$5\(^1\ext{\text{0}}\). September closed at \$3\(^3\ext{\text{0}}\). Considering the sharp break in wheat, the corn market held remarkably steady, although prices showed slight losses, Local receipts were small, but the total primary movement was 25 per cent in excess of that of the corresponding day a year ago. A carload of new corn was received in Chicago today from central illinois, but the grain was said to be absolutely unmerchantable. Several leading commission houses were liberal sellers. Lower prices at Liverpool aided the bears. The market closed steady; December opened unchanged to \(^1\text{\text{0}}\) (a lower at \$3\(^1\text{\text{0}}\) (4.1) which is old off to \$43\(^1\text{\text{\text{0}}\), and closed at \$43\(^1\text{\text{0}}\). The oats market was affected to some extent by the slump in wheat. The market, however, was held comparatively steady by the purchasing of nearly 1.000.000 bushels of May oats by a leading commission house. December closed at 25, a loss of \$4\(^1\text{\text{0}\) (4.2). With the excention of a small flurry in September pork, the provisions market was steady. A few lots of September pork were wanted, but no offerings developed until the prospective purchaser had bid up the price 55 cents a barrel. In general trading was very quiet. At the close January pork was off 5c, lard was down 2\(^1\ext{\text{\text{0}}\) (5c, and ribs were 5c lower.

Eggs—Firm at mark: cases included, 174; firsts, 1812; prime firsts, 2012; extras, 2212.

Pacific Coast Grain. San Francisco, Sept. 30.-Wheat-Eas

When it rains your boy will take advantage of any old excuse to get out in the wet-and he gets soaked and maybe catches cold -and you worry.

Fit him out in a "Hercules-Kantwearout" Shower-proof Suit and don't worry-water will run off him as it does off a duck's

You can force water through "Hercules" cloth because it is porous-but in an ordinary rain the fabric will not absorb a drop.

The shower-proofing process does not rot the cloth, nor alter its appearance, feel or wear, nor close up the pores and confine perspiration, nor dull the colors—just makes it Shower-proof, Perspiration-proof, Mothproof, and besides thoroughly Sanitary and Hygienic.

For every thread of cotton you find in a "Hercules" we will give you a suit free—the colors will stay as bright and clear as the day they came from the dyeing vat-the yarn is strong and woven as tightly as machinery can do it—nothing less than sheet iron pants will wear your boy better.

Unshrinkable materials throughout. Coat lined with extra heavy doublewarped Italian cloth. Two sleeve linings instead of one-(patent ap plied for). Pant seams double sewed and seams taped. Pants lined throughout with cold shrunk Irish linen-makes them Sanitary, Hygienic and extra strong.

Excelsior waist band of elastic webbing.

Look sharp for imitations - Hercules" labels on inside coat collar and on sleeve.

Made only in double-breasted twopiece Knee-Pants Suits for boys 6 to 16. Five Dollars everywhere.

Send us name of your clothes dealer and age of your boy and we will send you a "Hercules" suit free for inspection.
